

Thank you for purchasing this installation kit from Intellitronix. We value our customers!

INSTALLATION GUIDE

GM Oil Adapter

Part Number: INTX-02

Kit Components:

◇ One (1) Adapter 1/8" NPT

INSTRUCTIONS

- Thread the oil pressure adapter into the oil pressure port on the rear of the engine near the firewall. Tighten adapter using a $\frac{3}{4}$ " open end wrench. Ensure the oil pressure port is facing the direction you want the sensor to be mounted. There is a 45-degree sensor option as well. Remove hex plug if needed and replace in whichever is the empty port. Torque to 5ft-lb.

Note: Be sure to test for leaks before driving the vehicle.
